SKILLS

HTML . CSS . Sketch . Figma . Balsamiq . ArcGIS
UI Design . User Experience . Client Relationships
Mockups . Wireframes . Prototypes . JavaScript

UI Developer

Oct 2019 - Apr 2020

Metro Regional Government - Remote/Portland, Oregon

- Designer and prototyper of internal applications; used Balsamiq and Sketch to produce multiple versions for stakeholder approval.
- Developed designs for A/B testing.
- Refactored existing Ember and ArcGIS applications to enforce WCAG 2.0 compliance standards.
- Worked within an Agile framework to consistently exceed expectations of weekly deliverables and deployments.

UI Developer

Jun 2018 - Sep 2019

Dymaptic - Remote/Portland, Oregon

- Built wireframes, clickable prototypes, and page layouts in Balsamiq, Figma, and Sketch.
- Met with existing and prospective clients to discuss new work, write proposals and scope presentations, and build bids for projects.
- Lead designer and frontend engineer for client software applications.
- Customized maps utilizing ArcGIS framework.
- Developed presentations and workshops for team members to take to national conferences in reveal.js.
- Presented technical workshops at national conferences.

Operations Manager

Nov 2015 - Mar 2018

Far Out Solutions - Remote

- Led weekly remote staff meetings and conducted 1-1s with staff, leading to increased retention.
- Enabled over 10 small businesses to have a web presence by designing and maintaining websites for clients through Squarespace, Weebly, and Wix.
- Created personalized branding for clients by designing logos and building out brand guidelines.
- Placed job ads, screened, hired, and on-boarded technical and non-technical team members.

Co-Owner & Operator

Nov 2012 - Feb 2016

Gunstreet Goods - Remote/Atlanta, Georgia

- Designed and built multiple iterations of our website through Squarespace and set-up additional e-commerce opportunities through eBay and other online outlets.
- Co-created a stylized, vintage brand of curated apparel and footwear.

EDUCATION
