## UI Developer - Remote/Portland, Oregon
*Metro Regional Government*                                           Oct 2019 - Apr 2020
- Coded and enforced WCAG 2.0 compliance; decreased liability risk through UX and accessibility audits of the Economic Value Atlas Ember application and the Regional Barometer Esri Hub application.
- Sole designer and prototyper of all pages and windows of the Economic Value Atlas; used Balsamiq and Sketch to produce multiple versions for tester and stakeholder approval.
- Developed designs for A/B testing
- Worked within an Agile framework- as Scrum Master, Designer, and Frontend Engineer- to consistently exceed expectations of weekly deliverables and deployments.
- Coached junior developers and analysts on coding best practices and GitHub flow, created and led workshops on helpful Python tips and updates to internal technical standards.

## UI Developer - Remote/Portland, Oregon
*Dymaptic*                                                             Jun 2018 - Sep 2019
- Built wireframes, clickable prototypes, and page layouts in Balsamiq, Figma, and Sketch.
- Met with existing and prospective clients to discuss new work, write proposals and scope presentations, and build bids for projects.
- Lead designer and frontend engineer on information collection Angular applications for clients in the real estate sector.
- Customized maps utilizing ArcGIS framework.
- Developed presentations and workshops for team members to take to national conferences in reveal.js; gave technical presentations and co-led workshops with other team members.

## Operations Manager - Remote
*Far Out Solutions*                                                   Nov 2015 - Mar 2018
- Led weekly remote staff meetings and conducted 1-1s with staff, leading to increased retention.
- Enabled over 10 small businesses to have a web presence by designing and maintaining websites for clients through Squarespace, Weebly, and Wix.
- Created personalized branding for clients by designing logos and building out brand guidelines.
- Placed job ads, screened, hired, and on-boarded technical and non-technical team members.

## Co-Owner & Operator, e-commerce - Remote/Atlanta, GA
*Gunstreet Goods*                                                     Nov 2012 - Feb 2016
- Designed and built multiple iterations of our website through Squarespace and set-up additional e-commerce opportunities through eBay and other online outlets.
- Co-created a stylized, vintage brand of curated apparel and footwear.
